

LAKSHAY NAGPAL

Full-Stack Software Developer

+91 83959 91957 | lakshayn0001@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with 2.8 years of enterprise experience in software delivery, modern web architectures, SQL databases, and deployment reliability. Proficient in engineering scalable end-to-end solutions using React.js, Next.js, Node.js, TypeScript, PostgreSQL, and Docker. Demonstrated expertise in REST API integrations, AI-powered system workflows, and real-time event processing with high cross-functional ownership from concept to production release.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, SQL, Python, HTML5, CSS3
Frontend	React.js, Next.js, Tailwind CSS, Redux, Chart.js
Backend	Node.js, Express.js, REST APIs, JWT Authentication
Database & ORM	PostgreSQL, Prisma ORM, MongoDB, Mongoose
AI & Real-Time	Google Gemini AI API, Socket.IO, WebSockets
Developer Tools	Docker, Kubernetes (K8s manifests), Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Software Developer – Integration

April 2023 – January 2026

Open Access Technology India Pvt. Ltd. (OATI) | [Experience Letter](#)

- Orchestrated automated application deployments across 15+ enterprise server environments, reducing manual rollout overhead by ~40% across scheduled release cycles.
- Coordinated release lifecycles across 50+ builds, conducting pre-release validation and environment checks to maintain 99.5%+ uptime post-rollout.
- Authored and executed 100+ SQL validation queries and schema migration scripts to verify production data integrity and eliminate schema inconsistencies.
- Investigated system logs and analyzed backend REST API payloads to resolve critical deployment blockers, reducing average issue resolution time (MTTR) by ~30%.

Intern Teaching Assistant Engineer

January 2022 – June 2022

Geekster | [View Certificate](#)

- Mentored a cohort of 40+ aspiring developers in modern frontend technologies (JavaScript, React.js, HTML5, CSS3), achieving an 85%+ assignment completion rate.
- Facilitated 25+ hands-on debugging sessions, helping students diagnose and resolve complex algorithmic and application issues.
- Delivered technical guidance on REST API integration, responsive UI design, and component reusability best practices.

PROJECTS

AI Data Analytics Dashboard

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, Gemini API, Multer, Chart.js, Tailwind CSS

- Engineered an AI analytics platform that processes multi-megabyte CSV datasets in <2 seconds, enabling instant conversational querying via natural language.
- Designed a schema-aware pipeline utilizing the Gemini API to dynamically generate and execute MongoDB queries, reducing manual analytical querying time by 80%.
- Built robust REST APIs with Node.js and Express.js, integrating Multer for stream-based file processing and secure file validation workflows.
- Rendered 6+ interactive chart types using Chart.js and Tailwind CSS, delivering responsive visual breakdowns and exportable data insights.

Real-Time Chat Application

[GitHub](#) | [Live Demo](#)

Tech Stack: Next.js 16, TypeScript, Node.js, PostgreSQL, Prisma ORM, Socket.IO, WebSockets, NextAuth, Docker

- Architected a high-concurrency real-time messaging platform supporting sub-100ms message delivery and live presence tracking across active rooms.
- Implemented bidirectional communication streams with WebSockets and Socket.IO, minimizing connection latency and managing event-driven reconnections.
- Engineered optimized PostgreSQL database schemas with Prisma ORM, utilizing indexed relational queries to retrieve conversation history in <50ms.
- Developed a responsive, component-driven frontend using Next.js App Router and TypeScript, configured with Docker containerization.

EDUCATION

Bachelor of Technology (Computer Science) — Maharshi Dayanand University

2019 – 2023

CGPA: 7.2 / 10

CERTIFICATIONS

React JS Certificate

[View Certificate](#)
